J. Y. SAVAGE, No. 92 Fulton street.

Dr. Watts—Dear Sir—Seeing a Notice in yesterday's Herald of your Pulmonic Syrap, of which I had never heard before, and having lost a dear sister by consumption, I felt hurt to think such a certain remedy should be so little made public. I inquired of Rushton & Clark, and found the certificates of cures of consumption, &c., by the Nervous Antidote. I then called upon those persons, and found nine of them—Mrs. Winter, in Suffolk street, Mrs. Glass, 114 Broome street, &c., &c., and can but express my sorrow that such a remedy is not better advertised and made known. I would have given much to have known a month ago what I now do.

Yours respectfully. GEORGE ABNER.

ASTOR HOUSE, February 16, 1853.

By Letters Patent secured in 1840. Pulvermachoe's Patent Hydro-Electric Voltaic Chains, constructed to be worn under the garments, are the most wonderful discovery in medicine and electricity of the present day. They relieve, without pain or shock, instantaneously, acute nerwows pains, such as head, ear, and toothe ache, rheumatic pains, tie doloreux, &c., and by its mild but continuous and preceptible action on the body, diseases of years' standing—such as gout, local paralysis, nervous compaints, liver diseases, &c.—disappear as if by a miracle. They precipitate metals from their solutions, decompose water, defiect the magnetic needle, in short, show all the phenomenon of a powerful voltaic pile. The instruments producing these effects weigh about two conces, can be folded up in a pocket-book, are always ready for instantaneous use, and will last a man his lifetime, quarding himself, family and friends, &c., against that number of diseases and complaints in which mild streaming electricity is a perfectly safe, certain, and wonderful speedy remedy. The price of a complete chain is from \$1 to \$5; batteries, \$10 to \$22 50.

Lacredible as may seem the above facts, any person can easily convince himself beforehand, at the depot, of their truth. The importance of the invention has been acknowledged in America by the Academy of Medicine of New York, and the chains have been applied with great success in the medical colleges, the City, Bellevue, and Ward's Island Hospitals, Brooklyn City Hospital, &c., in Europe, by the Royal Colleges of Physicians and Surgeons in London; by the Academie Nationale de Medecin at Paris; by the Imperial faculty at Vienna; by the Royal colleges of Physicians and Surgeon in London; by the Academie Nationale de Medecin at Paris; by the Imperial faculty at Vienna; by the Royal faculty at Vienna; by the Royal faculty at Vienna; by the

of the highest order, including the principal nospitals in Europe.

The proprietors are in possession of testimonials to the same effect, from all the above institutions in America and Europe, as well as of the most eminent and distinguished members of the profession in both hemispheres, and invite the public to examine them.

Full and illustrated descriptions—one for personal use and one for scientific men—with copies of testimonials and a number of cases cured in New York and Europe, may be obtained, gratis, at the office. They will be forwarded, free of postage to any part of the United States, in answer to prepaid inquiries, containing three cents postage stamps.

Beafness and Blindness Cured.—The very greatest discovery of the age unquestionably belongs to Dr. Lutener, of 80 Prince street, second house cust of Broadway, viz, a safe and infallable treatment for all diseases of the eye and ear. The number and nature of his cures will fully prove this claim. Office hours from ten till four o'clock.

Wigs and Toupees.—Hatchelor's New Style of wigs are pronounced the most perfect imitation of nature yet invented. Those wanting a very superior article should call at BATCHELOR'S celebrated wig factory, No. 4 Wall street, where can be found the largest and best assortment in the city. Copy the address.

Trusses, Shoulder Braces, Female Supporters, instruments for club feet, kneek-knees, bow-legs, weak-ankles, and curvature of the spine. Also, a very superior elastic stocking for enlarged veins of the leg, and elastic knee caps. Also, adults' and children's trusses, and every kind of surgical belt and bandage, at DR. GLOVER'S, No. 12 Ann street, near Broadway.

Cristadoro's Celebrated Liquid Dye changes the hair instantly to a beautiful black or brown, while his Preservative and Beautifier stimulates its growth and perpetuates its luxuriance to the latest period of life. The dye is applied privately, and both sold at CRIS-TADORO'S, No. 6 Astor House, and by droggists gene-

Hair Dye.—Batchelor's Celebrated Liquid Hair Dye is the best yet discovered for coloring the hair or whiskers the moment it is applied. The wonderful case and certainty with which this favorite and old es-tabl'shed hair dye performs is astonishing. It is for sale, or applied, at BATCHELOR'S wig factory, No. 4 Wall street.

Dr. E. Brown, "the Great Scrofula Doctor,"
cance 147 Grand street.—A scientific treatment of scrofula is assuredly obtained of Dr. E. Brown, located at 147
Srand street. New England's cured have paid him many debts of gratitude. New York now has the offer of his services. Ye afflicted, seize time and call on him, ere it

Birth-marks, polypus, scirrhous cancers, tumors, moles, and all excresences removed from the face or body, by a painless external application. All persons interested will be perfectly satisfied of the fact, by calling at the office of the subscribers, 192 Second avenue, corner of Twelfth street. HARVEY & WALLACE.

Caledonian ball respectfully announce that they will give their second annual ball, on Thursday evening, Feb. 17, 1853, at Tammany Ball. The managers, in again appearing before the public, gratefully acknowledge the fattering encouragement they met with at their first ball, and feel assured that the same spirit which anisented their countrymen on that occasion will again spring forth, with increasing energy, on this. To renew the "Lague" of Friendship, and strengthen the "Greenant" of national feeling, are noble objects in themselves; but when coupled with charity, (to which the proceeds of the ball will be devoted.) it would surely be worse than superfluous to add one word by way of appeal. With these views, they have spared no exertions in engaging the best performers of our national music, and in making everything contribute to the taste, comfort and happiness of oil who may honor the ball with their presence. Greder of dancing, according to the programme. Conductor of the floor, Mr. Parker, who has kindly offered his valuable servicesan this occasion. The piper, in the garb of the Gael, will promonade the room, playing national airs, previous to the oasmencement, and during the intermission of handing. Shelton & Robertson's celebrated band has been engasod. A number of gentlemen will be present in the Highland costume. Boors open at 7 o'clock, dancing will commence precisely at 8 o'clock. The termination of the ball will be known by the sand niaving 'Good alght, an' joy be wi' you a'.' Tickets 21, to a mit a gentleman and two ladies; to be had at Adam Stodart's rusis store, 36 Readway; William Hall & Son's, corner preadway and Park place; Firth, Fond & Co. a, No. 1 trunklin square; or of cither of the managers, and the bar Tammany Hall. The Magnetic Telegraph.—New York offices, corner of Hanover and Beaver streets, and No. 203 Broadway, second building below Fullon street. The Magnetic Telegraph Company, for the purpose of the further accommodation of the public, to keep pace with the rapidly increasing telegraph business, and enable their agents to despatch, with the utmost promptitude, all messages that may be offered, have, at a heavy expense for construction and repairs, now completed and in active operation, two separate and distinct lines of poles and telegraphic wires, extending from New York to the city of Washington—one by the railroad route, with five wires, from New York to Philadelphia, and four wires from Philadelphia to Ballimore and Washington; by the other line, along the turnpike roads, there are two wires the whole distance, and the company have stations at Washington, Trenton, New Brunswick, Princeton, Newark, Jersey City, Havre de Grace, Port Deposit, and New Hope. With seven wires, as above, and regulations to insure prompt delivery, this company affords to persons disposed to avail themselves of the use and advantage of this rapid mode of communicating with personal or business friends in distant cities, an extent of means for promptitude unequalled by any other line in this country. Telegraphing, but recently an experiment, has become a systematic and reliable medium of business, and the amount of thousands upon thousands of dollars is daily transacted through its

agency.

PRI'SS.—For the transmission of ten words or less, (exclusive of date, address, and signature, for which ne charge is made,) the prices are:—From New York to Newark, twenty cents; to Philadelphia, twenty-five cents, and to Baltimore or Washington, fifty cents. THE MILITARY.

A T A SPECIAL MEETING OF THE FRANKIIN Guard of Brooklyn, held at the City Armory, on Feb. 15, after the object of the meeting was explained, it

Guard of Brooklyn, held at the City Armory, on reb. 15, after the object of the meeting was explained, it was, on motion,
Resolved, That a committee be appointed to draft resolutions expressive of the sentiments of the company.
Captain James H. Baldwin, Lieutenant Thomas H. Bavis, and Corporal William H. McNary, were appointed a committee, who immediately prepared the following preamble and resolutions, which were unanimously adopted, and ordered to be published in the Brooklyn papers and the New York Herald; also that a copy be sent to the Pierson Light Guard, to unite with them in paying the last tribute of respect to the memory of the late Lieutenant Charles B. Brower, which we felt it our duty to do, not only as fellow citizens, but on account of the distinguished service he rendered his country; and, moreover, because there are men in our ranks between whom and the deceased there existed that friendship which nothing but death could sever; and also having met for the purpose of escerting the New York Volunteers from the ferry to the church where the remains of the deceased were, a duty we would have been proud to perform; therefore.

Resolved, That we inform the Pierson Light Guard that we were in readiness at the City Armory at the time appointed by one of their committee, Lieutenant Wizeman, and after waiting nearly two hours, being informed that the New York Volunteers had left the ferry, we were dismissed.

Resolved, That the New York Volunteers be informed

the New York Volunteers had left the ferry, we were dismissed.

Resolved, That the New York Volunteers be informed that we sincerely regret having been deprived, through the neglect of the Fierson Light Guard, of the opportunity of showing our respect for them when coming to the city of Brooklyn, and for their late botther, the deceased.

Resolved, That we leave the Fierson Light Guard to judge and decide for themselves of the manner in which they have treated us and acted towards us in this case, either as fellow citizens or as citizen soldiers; also to judge of the feelings of our company when placed in such a position.

Captain JAMES H. BALDWIN, Chairman.

William H. McNaev, Secretary.

ENSTRUCTION.

To THE PUBLIC.—THE IMPORTANCE OF A GOOD hand to all classes.—As it is conceiled by all who have taken lessons of the undersigned, or have witnessed the progress of his pupils, that GOLDSMITH'S plan of tuition and the styles of penmanship he teaches are as near perfection as human skill has yet attained, it seems only necessary to present in its full force the importance of a clear, symmetrical and expeditious hand, to all classes, to challenge the attention and enlist the practical exercitons of every bad writer in this leading and indispensable branch of a useful education. To the young man just entering upon his business noviclate, whether as a clerk, or salesman, or bookkeeper, the first and most essential requisite is a thorough command of the pen. He may have all the rules of arithmetic at his fingers' ends, and be capable of applying them with the rapidity of thought—he may understand the principles of bookkeeping in all its forms, intimately and thoroughly—but if his dexterous fingers cannot readily trace in clear, bold and beautiful characters, the entries he has to make in the journal and ledger—if he cannot copy a letter, make out an invoice, fill up a bill of exchange, or draw up any business document or statement, in a good merchant-like hand, and with rapidity and ease, his services in the store or counting house will be of comparatively little value, and with his skill in figures and talents for its details, he must ever hold a subordinate position. Before he can make one forward step, he must become a good penman. To the professional man, whether his vocation be the law, the press, the pulpit, or any branch of science, literature or art, the pen of a ready writer is a great desideratum. The time that is saved by a swift and accomplished penman in the expression of his ideas, as contrasted with the time lost by a busgler, must in the course of a slow and awkward penman. To the ladies, elegant penmanship ought to be a matter of ignorance as well as slovenliness. Not a few of the oppor
